## Developing Health™: Cincinnati

## Health Center Locations:

### Overview

“Developing Health” is a new, three-year \$50 million program providing grant funding and GE employee volunteer support to non-profit health centers across the United States. Recognizing the urgent issues related to cost, quality and access to health care for underserved populations in the United States, GE Foundation launched the “Developing Health” program which aims to increase access to primary care for underserved populations in targeted communities. In June 2010, the GE Foundation awarded \$750,000 in grants across three partner community health centers in Cincinnati, OH.

### Cincinnati Sites (received 750,000)

#### Lincoln Heights Health Center & Mt. Healthy Family Practice Center

The HealthCare Connection was founded in 1967 as Ohio’s first community health center. The mission is the same today as it was when first opened for operation. THCC serves low-income, underinsured, and uninsured persons living in northern Hamilton County, receiving approximately 41,000 patient visits a year. THCC makes sure all patients receive the same access to quality healthcare as fully insured persons. Services include medical, dental, and social services. The HealthCare Connection is one of five health centers nationally honored as “Models That Work” by the United States Department of Health and Human Services in 1995. In 2002, the Ohio Association of Community Health Centers gave the center the Landmark Recognition Award for its pioneering work in community health. Dolores J. Lindsay leads The HealthCare Connection as chief executive officer.

#### Winton Hills Medical & Health Center

Located in the Winton Hills neighborhood of Cincinnati, Ohio, this community health center is fully equipped in providing primary health care for the entire family. From annual physicals to complex problems, the center operates an enhanced facility with modern technology to ensure every condition is treated with great detail. The center also conveniently performs routine and minor emergency care in the office. Winton Hills receives approximately 19,000 patient visits per year and is led by Chief Executive Officer Miriam Crenshaw.

## Volunteer Support

Created by GE Foundation and the GE Corporate Diversity Council, Developing Health will be led by GE's Affinity Networks and employee groups, which include the Asian Pacific American Forum, Women's Network, Hispanic Forum, African American Forum, the Veteran's Network and the Gay, Lesbian, Bisexual, Transgender Alliance. The Affinity Networks and employee groups will partner with the selected non-profit health centers and offer volunteer support and business best practice sharing, in order to help clinics reach underserved populations and enable access to primary care. ## About the GE Foundation

The GE Foundation, the philanthropic organization of the General Electric Company, works to solve some of the world's most difficult problems. In coordination with its partners, it supports U.S. and international education, developing health globally, the environment, public policy, human rights and disaster relief. In addition, the GE Foundation supports GE employee and retiree giving and involvement in GE communities around the world. In 2008, the entire GE family — including businesses, employees, retirees and GE Foundation — contributed more than an estimated \$237 million to community and educational programs, including more than \$100 million from GE Foundation.
