Developing Health™: Greenville

Overview

"Developing Health" is a new, three-year \$50 million program providing grant funding and GE employee volunteer support to non-profit health centers across the United States. Recognising the urgent issues related to cost, quality and access to health care for underserved populations in the United States, the GE Foundation launched the "Developing Health" program which aims to increase access to primary care for underserved populations in targeted communities. In April 2011, the GE Foundation awarded \$750,000 in grants to New Horizon Family Health Services' community health centers in Greenville, Greer and Travelers Rest.

New Horizon Family Health Services Inc. (Greenville, Greer and Travelers Rest locations, received \$750,000)

NHFHS began as Greenville Community Health Center (GHCHC) in 1992. In 1999, GHCHC merged with Slater-Marietta Health and Human Services and became NHFHS. Today, NHFHS operates a system of free-standing practices, including seven primary care offices strategically located in high need areas of the county. Additional services include a dental practice, a Health Care for the Homeless Mobile Medical Unit, and a Mobile Dental Unit in collaboration with Bon Secours St. Francis and Greenville Technical College. The center's Ryan White Part C HIV/AIDS program serves 950 patients in 10 counties. NHFHS has four full-time pharmacies.

Services include comprehensive primary and preventive care; same day/sick care; lab testing; pediatric, adolescent and adult medical care; limited specialty care; family planning, immunizations, management of chronic diseases, dental services, pharmacy, behavioral health, health education, nutrition counseling, Medicaid eligibility, case management and translation. Over 76,000 medical, dental and behavioral health visits are provided to 21,000 patients annually. Over 164,000 prescriptions are filled on site.

Mike Barber, vice president of Healthymagination, GE, speaks at the launch event

NHFHS' mission is to improve the health of Upstate communities by providing quality, affordable, compassionate, patient-centered health care. School-based Health Centers

Volunteer Support

Created by GE Foundation and the GE Corporate Diversity Council, Developing Health will be led by GE's Affinity Networks and employee groups, which include the Asian Pacific American Forum, Women's Network, Hispanic Forum, African American Forum, the Veteran's Network and the Gay, Lesbian, Bisexual, Transgender Alliance. The Affinity Networks will partner with the selected non-profit health centers and offer volunteer support and business best practice sharing, in order to help clinics reach underserved populations and enable access to primary care. About the GE Foundation

The GE Foundation, the philanthropic organization of the General Electric Company, works to solve some of the world's most difficult problems. In coordination with its partners, it supports U.S. and international education, developing health globally, the environment, public policy, human rights and disaster relief. In addition, the GE Foundation supports GE employee and retiree giving and involvement in GE communities around the world. In 2010, the entire GE family — including businesses, employees, retirees and the GE Foundation — contributed more than \$250 million in cash, products, and services to charitable organizations around the world.
