## Developing Health Globally

Created by GE Foundation and the GE Corporate Diversity Council, Developing Health is led by GE's Affinity Networks and employee groups. The Hispanic Forum is proud to partner with non-profit health centers and offer volunteer support and business best practice sharing, in order to help clinics reach underserved populations and enable access to primary care. On December 13, the 10<sup>th</sup> location for Developing Health was announced in Fairfield County Connecticut.

Through Developing Health, GE employees work with the health centers to address specific needs, ranging from marketing communications to process improvements, and offer their business skills and expertise to drive improvements that benefit patients, workflows and outcomes. In the past GE volunteers have assisted with process mapping, regulatory and procedural compliance, financial expansion planning and budgeting as well as IT plans.

The cities now part of the Developing Health program include:

- New York City
- Cincinnati
- Atlanta
- Milwaukee
- Houston
- Baltimore
- Louisville
- Fairfield County (CT)
- New Orleans
- Schenectady (NY) to be launched in January

**Baltimore**

**New Orleans**
